In the modern world , surfing Internet seems to be a fashion. We all know it has advantages and disadvantages , however, teachers and parents are all against it. In their opinion , it is just a waste of time.

It’s true that if you spend too much time on the Internet or play games too long, it has a bad influence on your study. But also it is very necessary for us students to search the Internet. In order not make them worried, you should talk with your mother patiently and tell her that using computers and the Internet is an important skill. We can use it to find useful information that we need and communicate with our friends and teachers. Sending e-mails and checking out some international news are useful for us as well.

Here are all my suggestions. Please keep a good balance between the Internet and study.

Tracing back to a Sunday last year, the moving moment warmed my heart deeply.

That day, I went to a bookstore to buy books. It was snowing and there was ice everywhere. I walked on the street carefully, but I couldn't stand the cold weather, so I started to run in order to get back home as soon as possible. Then something bad happened. I fell down and books dropped onto the street. I felt so pain that I couldn't even stand up! Unexpectedly, a woman came by and helped me. She also asked me how I was. At that moment, my heart was filled with warmth.

I'll never forget this moving moment!

I had a pleasant day last month. In the morning, I got up late and then began to do my homework. It took me about two hours to finish it. Next, I had fun playing computer games.

While my mother was cooking lunch, I cleaned the house and washed my clothes. In the afternoon, I played tennis happily with my friends. Before I went to bed, I listened to music. It made me relaxed. What a happy day I had!
